

EXCHANGE

ENDLESS OPPORTUNITIES AT A BUDGET-FRIENDLY PRICE!

Study abroad through the largest international exchange community!

ISEP Exchange offers more programs, more academic options, and more locations than any other study abroad opportunity. On ISEP Exchange, you'll be part of a 40+ year tradition of global cooperation, sustainable travel, and equitable opportunities. Students around the world participate in this unique program, creating access for each other to experience another country and culture as part of ISEP's global community.

AFFORDABILITY

ISEP Exchange students pay their home university cost for their tuition, housing, and meals. That means it costs about the same to go abroad as it does to study at your university now! You'll just need to factor in a few extra fees for travel, a visa, your application, and insurance expenses.

ACCESSIBLE FOR ALL

ISEP exchange placements are available to students in every major and with any language level. Students around the world are eligible for ISEP Exchange, and your participation opens a spot on your campus for an international student to study at your university.

IMMERSIVE EXPERIENCES & LIFE-LONG FRIENDSHIPS

On an ISEP Exchange program, you'll be fully immersed at your host university, taking classes taught by local faculty, with local and international students. You'll have access to all your host community offers, including student activities and social events. As an ISEP student, it's easy to make friends from around the world and develop lasting personal and professional connections.

Studying Abroad in Austria was one of the greatest experiences of my life. From meeting sheep in the mountains to exploring the endless streets that make up Vienna, Austria has so much culture and unique experiences to offer. Sometimes your most fond memories are made by not going too far and simply enjoying what is already around you."

HOW ISEP EXCHANGE WORKS

APPLICATION & PLACEMENT PROCESS

- An expert ISEP Student Services Officer will help you find programs that fit your academic needs and personal goals. Some programs have a higher chance of placement and others are more competitive. Your ISEP Student Services Officer will help you build a list so you have the best chance of placement.
- A dedicated ISEP coordinator at your home university assists with your application and helps you prepare to go abroad.
- After you submit a complete application, ISEP uses an equitable algorithm system to place the most students as possible at the institutions that are listed the highest on their application.
- Next, ISEP will place you at one of your selected programs. Then the host institution reviews your application. Once you are approved, you sign your contract and start preparing for your study abroad adventure.
- When you arrive abroad, you will be welcomed and supported on-site by your host coordinator and your host university.

DID YOU KNOW?

75%

of ISEP Exchange Applicants receive a placement at one of their top 3 requested host institutions!

HOW MUCH DOES IT COST?

- You pay your home institution for tuition & fees, housing, and meals. Talk to your ISEP coordinator at your home institution to understand exactly what you will need to pay.
- You'll also want to factor in a few other expenses, including flights, a visa and passport, health insurance, the ISEP application fee, and the placement fee.
- If you are from the United States, it is possible for you to transfer your Federal, state, and institutional aid towards your ISEP Exchange program. Set up a meeting with your home institution's financial aid office to learn the details.

WHAT'S INCLUDED

- Meals, housing, and tuition are all included and provided by your host institution
- Support from a local onsite host coordinator employed by your host institution, including an on-site orientation
- Classes with locals (except for language programs), taught by local faculty
- Access to all that your host institution offers, including academic services, libraries, campus facilities, and more
