*Engineering & Computer Science*

## **Study in Bangkok | Thammasat University | *Chance of Placement: Fair***

From Bangkok's famous food scene to the incredible scenery of Thailand's mountains and coastline, studying at prestigious Thammasat University gives you incredible access to Southeast Asia. Courses available in Chemical, Civil, Industrial, Mechanical, Digital, Computer, and Electrical Engineering, and Engineering Management. (Also available on ISEP Direct.)

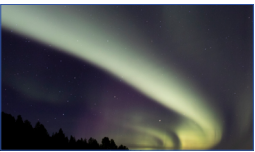

## **Study in the United Arab Emirates | American University of Sharjah | *Chance of Placement: Fair***

Sharjah is conveniently located near Dubai and courses are available in Aerospace, Biomedical, Chemical, Civil, Computer, Environmental, Industrial, Materials, and Mechanical Engineering. Courses are also available in Computer Science, Engineering Management, and Entrepreneurship. (Also available on ISEP Direct.)

## **Study in Austria | Technische Universität Graz | *Chance of Placement: Fair***

Graz is a well-known college town with more than 40,000 students attending local universities and a UNESCO recognized Old Town. At this future-focused technological campus, courses in English are available in Biomedical, Chemical, and Electrical Engineering, and Computer Science. A German language course is available for an additional fee.

## **Study in Sweden | Luleå University of Technology | *Chance of Placement: Good***

Located in northern Sweden, Luleå University of Technology is known for its focus on space policy and issues. You'll have access to excellent laboratory facilities, including the high power laser laboratory and electron microscopes. Courses in English are available in Environmental, Electrical, and Space Engineering, and Material Science.

## **Study in Northern Ireland | Ulster University | *Chance of Placement: Fair***

Study in Northern Ireland and experience a unique aspect of Irish culture and history while taking classes for your degree. On the Belfast campus of Ulster University, students can choose from extensive options in Civil Engineering and Computer Science. At the Magee campus, Electrical Engineering and Computing courses are available. (Also available on ISEP Direct.)

## **Study in Seoul | Hanyang University | *Chance of Placement: Fair***

Seoul offers big city life, excellent cuisine, and top-notch academics. At Hanyang you can study a wide variety of engineering subjects in English, including Civil and Environmental, Electrical, Architectural, Organic and Nano, Industrial, Biomedical, Mechanical, Automotive, and Nuclear engineering. Engineering core courses are also available.

## **Study in Morocco | Al Akhawayn University | *Chance of Placement: Excellent***

Ifrane is located in the mountains of Morocco and attracts students from across the region. Undergraduate coursework is taught in English for Computer Science, Artificial Intelligence, Big Data, Software Design and Development, Computer Systems, Engineering Management, and Manufacturing Engineering.

## **Study in Northern Spain | Universidad de Vigo | *Chance of Placement: Good***

Boasting beautiful beaches and delicious seafood, Universidad de Vigo offers students the opportunity to immerse themselves in Spanish and Galician culture while taking a wide variety of English-taught coursework in fields like Computer, Electrical, Environmental, Industrial, Mechanical, and Mining Engineering.

## **Study in France | INSA-Lyon | *Chance of Placement: Excellent***

Study in the largest student city in France at prestigious INSA-Lyon! Spend a fall or academic year in the Computer Science program, which includes guided research, content courses, and a French class. No prior French language is required and the program is conducted entirely in English.

## **Study in Seoul | University of Seoul | *Chance of Placement: Good***

In bustling Seoul, students can take courses in Electrical or Computer Engineering and pair them with courses in Korean language and culture. The University of Seoul is a public institution and offers many opportunities for international students to get involved on campus and with other international students.

*Additional ISEP Exchange sites available. Please see [isepstudyabroad.org](http://isepstudyabroad.org) to explore all your options!*

STUDY ABROAD

# STUDY ON ISEP DIRECT

*Engineering & Computer Science*

ISEP Direct Programs offer guaranteed placement at an affordable price in popular cities and destinations for all students who meet the minimum eligibility requirements. Learn more at [isepstudyabroad.org](http://isepstudyabroad.org).

## **Study in Sydney | University of Technology, Sydney**

Walk to Darling Harbour from the modern campus of UT Sydney, or easily take local transportation to the beach! Diverse Sydney offers plenty to keep you busy, but it's easy to explore the rest of Australia too. On campus, engineering and computer science students can choose from core engineering coursework, Civil, Environmental, Electrical, Mechanical, and Data and Software Engineering, and Data Analytics. Graduate coursework is available.

## **Study in London | University of Roehampton**

Based on a beautiful campus in southwest London, students at Roehampton love having easy access to everything London offers with the quiet of a traditional university campus. The friendly and supportive community offers activities to help you meet other international students and get the most out of studying in London. Ideal for Computer Science students, course options range from Operating Systems, Data Visualization, Software Development, Artificial Intelligence, Cyber Security, and Data Science.

## **Study in Seoul | Yonsei University**

Highly-ranked Yonsei University is located in Seoul's university district with great access to shopping, restaurants, and nightlife. On the weekends, explore Seoul's unique culture or travel throughout South Korea. Extensive coursework in English is available in math, science, and engineering. Class options include Engineering Mathematics, Dynamics, Electronic Circuits, Data Structures, Thermodynamics of Materials, and much more. An excellent option for most engineering majors, students can also take Korean language and culture classes.

## **Study in Scotland | University of Strathclyde**

University of Strathclyde is located in the heart of friendly Glasgow, a city known for its excellent music and food scene. Engineering students will thrive on this programs due to its status as having the largest Engineering faculty in Scotland. Examples of coursework include, "Engineering Materials," "Mobile App Development," and "Anatomy and Physiology for Biomedical Engineers." This is a great program for students studying Aeronautical, Biomedical, Chemical, Civil, Computer, Electrical, and Mechanical Engineering.

## **Study in Ireland | University College Cork**

Cork is a premier destination for Irish culture, music, and food, and makes an excellent base for exploring Ireland. The prestigious university welcomes thousands of international students each year. The most courses are available in Computer Science, and Civil and Electrical Engineering, but classes are also available for Environmental Science, Energy Engineering, Process Engineering, Math, Physics, and Chemistry.
